Please read: We provide technical and administrative services, not legal or tax advice. This report describes what the law requires and what we found on your website on the date shown. It does not tell you whether you are liable, and it is not a substitute for advice from a qualified lawyer.

The evidence

Accessibility of the online shop▲ Action needed WHAT THE LAW REQUIRES Consumer-facing online shops must be usable by people with disabilities, measured against EN 301 549, which adopts WCAG at level AA, and must publish an accessibility statement. The exemption is under 10 staff and under €2m turnover. Since January 2026 the market surveillance authority runs its own checks. WHAT WE FOUND ON YOUR SITE 9 automatically detectable failures against EN 301 549, 7 of them critical; no accessibility statement was found. THE SPECIFIC PROOF 5 Images without alternative text CRITICAL Images with no alt attribute, so the catalogue is unusable with a screen reader. EN 301 549 §9.1.1.1 <img src="...  As we found it, homepage	
2 Buttons with no accessible name CRITICAL Buttons announced only as "button", usually where an icon replaced the text. EN 301 549 §9.4.1.2 <button class="icon-btn" type="button"> <svg width="19" height="19" viewBox="0 0 24 24" fill="none"...  As we found it, homepage	
Also found: text contrast below the required ratio (2). Every rule group is listed with an effort estimate on page 3.	
Responsible person in the EU▲ Action needed WHAT THE LAW REQUIRES A product may only be placed on the EU market if an economic operator established in the EU is responsible for it, and that operator's name and contact details appear with the product offer. WHAT WE FOUND ON YOUR SITE No responsible person in the EU was named on the homepage, a product page, and the legal pages we checked. THE SPECIFIC PROOF Searched the homepage, a product page, and the legal pages we checked for "responsible person", "verantwortliche Person", "EU representative" and "authorised representative". No match.	
Packaging registration▲ Action needed WHAT THE LAW REQUIRES Anyone first placing filled packaging on the German market must be registered in the LUCID register before the first shipment and must license those volumes with a dual system. Marketplaces must block sellers who are not. WHAT WE FOUND ON YOUR SITE We searched the public LUCID register on 2026-08-16 under the legal entity above and found no registration. THE SPECIFIC PROOF Public Verpackungsregister searched on 2026-08-16 under "Nordlicht Home ApS": no registration returned. searched under the ApS and the trading name	
Automated testing detects a minority of accessibility barriers. These counts are what a machine can prove; they are a floor, not a total. Manual keyboard and screen-reader testing is included in the remediation quote.	

What it takes to fix

PRIORITY	WHAT NEEDS DOING	EFFORT
First	Images without alternative text — 5 instances	2–5 min each
First	Buttons with no accessible name — 2 instances	5 min each
First	Manual keyboard and screen-reader audit of the purchase path	1 day
First	Name an EU responsible person and show the details with each product	Half a day, plus the appointment itself
First	Register in LUCID and license packaging with a dual system	Typically 2–3 weeks end to end
Then	Text contrast below the required ratio — 2 instances	Half a day for a palette pass
Then	Publish an accessibility statement	2–3 hours

This report	€890
Remediation of the items above, fixed price after a short scoping call	—
Quarterly re-scan and a refreshed report	€290 per quarter
